ABOUT ME

Self-taught Java backend developer with hands-on experience building personal projects using Spring Boot. Experienced in developing RESTful APIs, working with SQL and NoSQL databases. Familiar with microservices architecture and core distributed system concepts, including service communication and containerization with Docker. Ready to take responsibility and contribute to project development

PERSONAL PROJECTS

E-commerce API

[Java 21](#) | [Spring Boot](#) | [Spring Security](#) | [Spring Data JPA](#) | [PostgreSQL](#) | [Hibernate](#) | [JWT](#) | [JUnit 5](#) | [Mockito](#) | [Docker](#) | [Spring Cloud](#)

- Developed a scalable e-commerce platform based on a microservices architecture
- Containerized services with Docker and managed service discovery and API routing using Spring Cloud components
- Integrated Stripe payment processing with webhook handling to ensure reliable payment status synchronization
- Implemented secure authentication and authorization using JWT and Spring Security to protect user data and API endpoints
- Worked with PostgreSQL and Hibernate for database interaction and persistence management

Weather API

[Java 25](#) | [Redis](#) | [Java HttpClient](#) | [External API Integration](#)

- Developed a backend service for retrieving weather data from a third-party API
- Implemented Redis-based caching with TTL expiration to reduce redundant external requests and improve response time
- Integrated external API communication using Java HttpClient and processed JSON responses

TECHNOLOGIES

Languages: Java 17-25

Frameworks: Spring Boot, Spring Security, Spring MVC, Spring Data JPA, Hibernate ORM, Spring Cloud

Databases: PostgreSQL, MySQL, Redis

Web: REST APIs, HTTP, JSON, HTML, CSS

Tools: Git, GitHub, Maven, Docker, Docker Compose

LANGUAGES

English - B2, Polish - C1, Ukrainian - native speaker, Russian - C1

EDUCATIONAL BACKGROUND

Bachelor's Degree in Computer Science | University of the National Education Commission, Kraków
Oct 2024 - Present (2nd year)

Bachelor's Degree in Software Engineering | Ternopil Ivan Puluj National Technical University, Ternopil, Ukraine

Sep 2023 - Present (3rd year) | distance form of education
